STUDENT AT DEERWALK INSTITUTE OF TECHNOLOGY

SIDDHARTHA SHAKYA

I'm a passionate full-stack developer with a strong interest in AI and Machine Learning, blending technical expertise with creative problem-solving. Alongside building modern, scalable applications, I explore UI/UX design to craft intuitive and visually appealing user experiences. My creative side also extends to video editing, where I enjoy bringing ideas to life through engaging visuals and storytelling.

ACHIEVEMENTS

Digital Transformation Coordinator
I worked as a digital transformation coordinator at Patan JCI for a year, where I gained valuable experience in graphics, technology, and team leadership.

- Programming Language (Python, HTML, CSS, JavaScript, SQL) - Skillful
- ReactJs,Nextjs - Skillful

LANGUAGE

Nepali ●●●●●
English ●●●●○

- GPA- 3.64

Secondary Education Examination

DAV Sushil Kedia Vishwa Bharati / Lalitpur / June, 2009 - April, 2019

- GPA- 3.25

PROJECTS

The Ground Show Podcast

Our team created a podcast show where we record sessions with experts and inspiring individuals.

https://www.youtube.com/@TheGroundShow1/videos

Disease Prediction System

"Developed a machine learning–based Disease Prediction System that analyzes health parameters to assess disease risk and support early diagnosis."

https://github.com/SydDwit/disease-prediction

Resume Screening System

Created an AI-driven tool to automatically evaluate and rank resumes based on job requirements, improving hiring efficiency.

https://github.com/SydDwit/resume-screening

VoteSphere

Built a secure web-based voting platform enabling user authentication, vote casting, and result tallying in real time.
